

AGILE SCRUM MASTER

OVERVIEW

We're looking for an experienced Agile Scrum Master who can lead cross-functional teams, remove roadblocks, and ensure smooth Agile delivery. You'll be the bridge between strategy and execution—empowering developers, product owners, and stakeholders to deliver high-quality outcomes efficiently.

RESPONSIBILITIES

- Facilitate all Scrum ceremonies (Daily Standups, Sprint Planning, Retrospectives, Reviews).
- Coach team members and stakeholders on Agile practices, ensuring continuous improvement.
- Track and monitor sprint progress, team velocity, and delivery metrics.
- Identify and resolve impediments to ensure teams stay on track.
- Partner with Product Owners to refine and prioritize backlogs.
- Foster a culture of accountability, collaboration, and transparency within the team.
- Support multiple teams (if required) and align delivery with business objectives.

QUALIFICATIONS

- 3+ years of experience as a Scrum Master or Agile Coach.
- Solid understanding of Agile frameworks (Scrum, Kanban, SAFe is a plus).
- Strong communication, facilitation, and conflict-resolution skills.
- Experience working with tools like Jira, Confluence, or similar project management systems.
- Proven ability to remove impediments and support team performance.
- Scrum Master certification (CSM, PSM) preferred.
- Experience in scaling Agile across multiple teams/projects.
- Background in software development or technical projects.
- Exposure to distributed/remote team management.

WHY JOIN ASPIRAGLOBAL?

At AspiraGlobal, we empower businesses to scale by providing exceptional talent solutions. As part of our team, you'll work in a dynamic, innovation-driven environment where collaboration and growth are key. You'll have opportunities for mentorship, professional development, and a real impact on the businesses we support. Together, we solve problems, drive progress, and create meaningful change.
